MY HIGH VIBE OFFERINGS BLUEPRINT

What digital offerings speak to me as potentials to explore further?

What physical offerings speak to me as potentials to explore further?

What passive offerings speak to me as potentials to explore further?

What 1:1 offerings speak to me as potentials to explore further?

What can I simplify and add value to for MY tribe?

What do I REALLY sell/offer? {i.e.: do I sell “coaching” or do I sell “strategic results-based inspiration for living your best life and career”} Explore!

What can I outsource? {Now or in the future?}

If I had at least ONE offering in the 4 various offerings facets, what would they be?

If I could create ONE offering in the next month that would deliver BADASS results for my community, what would it be?

What's holding me back from creating what I REALLY want to unleash in the next 12 months?

If I were truly limitless, what would I begin creating for my tribe, right now?

What's something I've already unleashed that could segue into another product or offering?

Where am I making things more difficult than they need to be?

How can I simplify what I'm about in order to bring more ease, grace, flow and MAGIC into my life & the lives of my community?
